Education

● Le Wagon

Full-Stack Developer Course

2020

- 9-week intensive coding bootcamp

● University of Coimbra

Master's in Finance

2016 – 2019

- Best Student Award

● University of Coimbra

Bachelor's Degree in Management

2013 – 2016

- 3% Best Students Award

● University of Economics of Prague

Erasmus Mobility Program

2015 - 2016

Soft Skills

- Problem-solving skills
- Analytical capacity
- Fast learning capabilities
- Teamwork

Languages

Portuguese Native

English Advanced (C1)

Spanish Intermediate (B1)

Edgar Marques

Full Stack Developer

Talented and passionate Full Stack Developer with a skill set focused on Ruby on Rails and JavaScript. Top student and outstanding professional during his initial career in finance. First learned to code in college while pursuing his interest in math-related subjects. Recent graduate of coding bootcamp excited about the journey ahead.

Technical Skills

Languages: Ruby, Java, JavaScript ES6, HTML 5, CSS 3, SQL

Frameworks / Libraries: Ruby on Rails, React, Node.js, jQuery

Other tools: Git/GitHub, Unit Testing, API, OOP, MVC, Sass, Bootstrap, Webpack, Heroku, Stripe

Personal Projects

Fishing Forecast App (check the [website](#) and the [repository](#))

A web platform for fisherman to record their fishing trips and to get predictions on the best fishing locations available (based on an analysis of historical data)

Main features: Implemented a machine learning algorithm to predict the best fishing locations available; integrated location and weather APIs; built a REST API

Technologies: Ruby on Rails, JavaScript, HTML, CSS, PostgreSQL, API (integration and building), Machine Learning

Craftwork Ecommerce (check the [repository](#))

An online marketplace for craftwork

Main features: Integrated the Stripe's payment processing API; simulated orders logistics with Background Jobs; created a custom autocomplete search bar

Technologies: Ruby on Rails, JavaScript, HTML, CSS, PostgreSQL, Stripe

Trip Finder App (check the [repository](#))

A web platform that fetches data from airline and housing websites in order to find the best travel packages available (work in progress)

Technologies: Ruby on Rails, React, HTML, CSS, API (integration), Web Scraping

Work Experience

Accountant at My Business - Accounting Firm (03/2018 - 08/2019)

- Coordinated a small team responsible for the accounting process of 50 clients
- Used a new technology to automate the accounting process, which resulted in a reduction of the time spent on certain tasks by up to a quarter of the original
